SpamCloud - Sender allow list

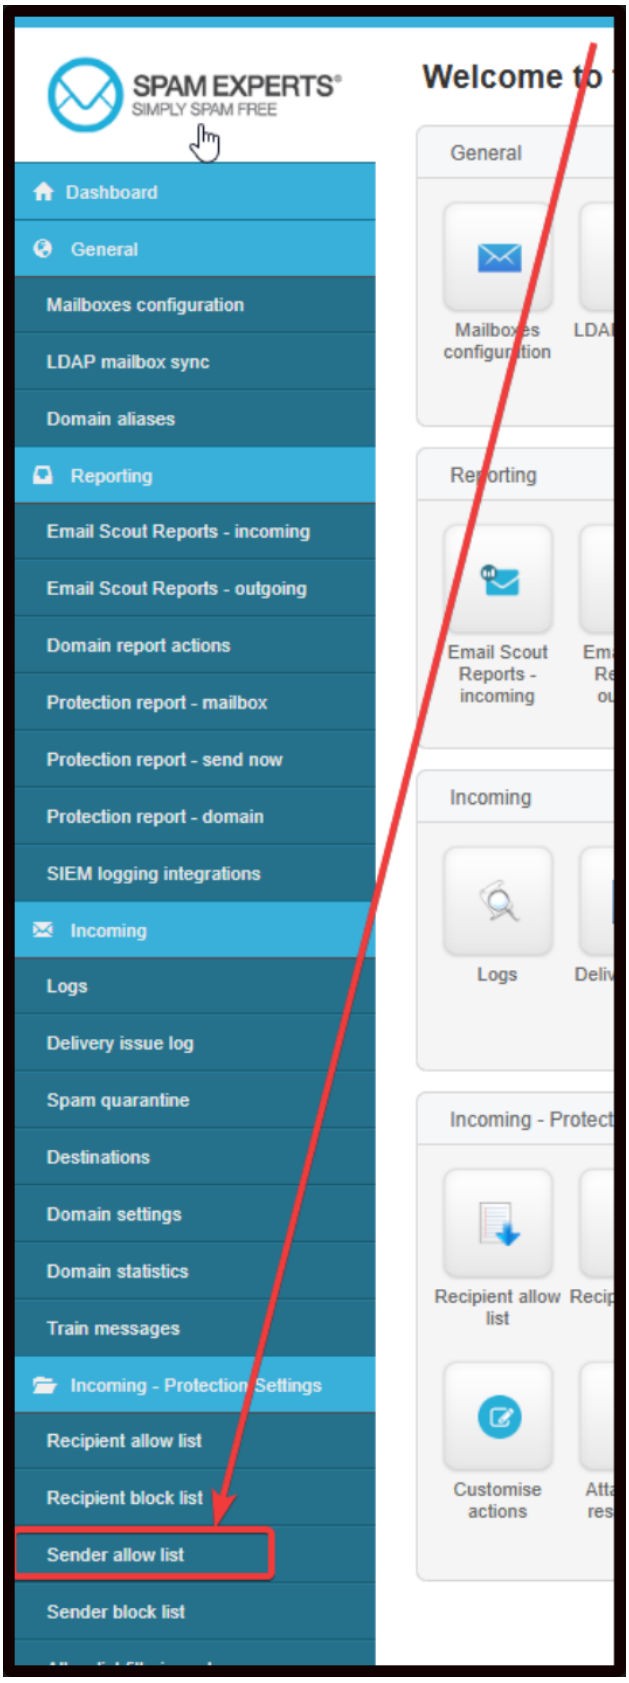

1 - Din meniul din dreapta alegeți modulul „**SpamExperts Email Security**” sau mai poate fi sub numele de "**hostMD SpamCloud**"

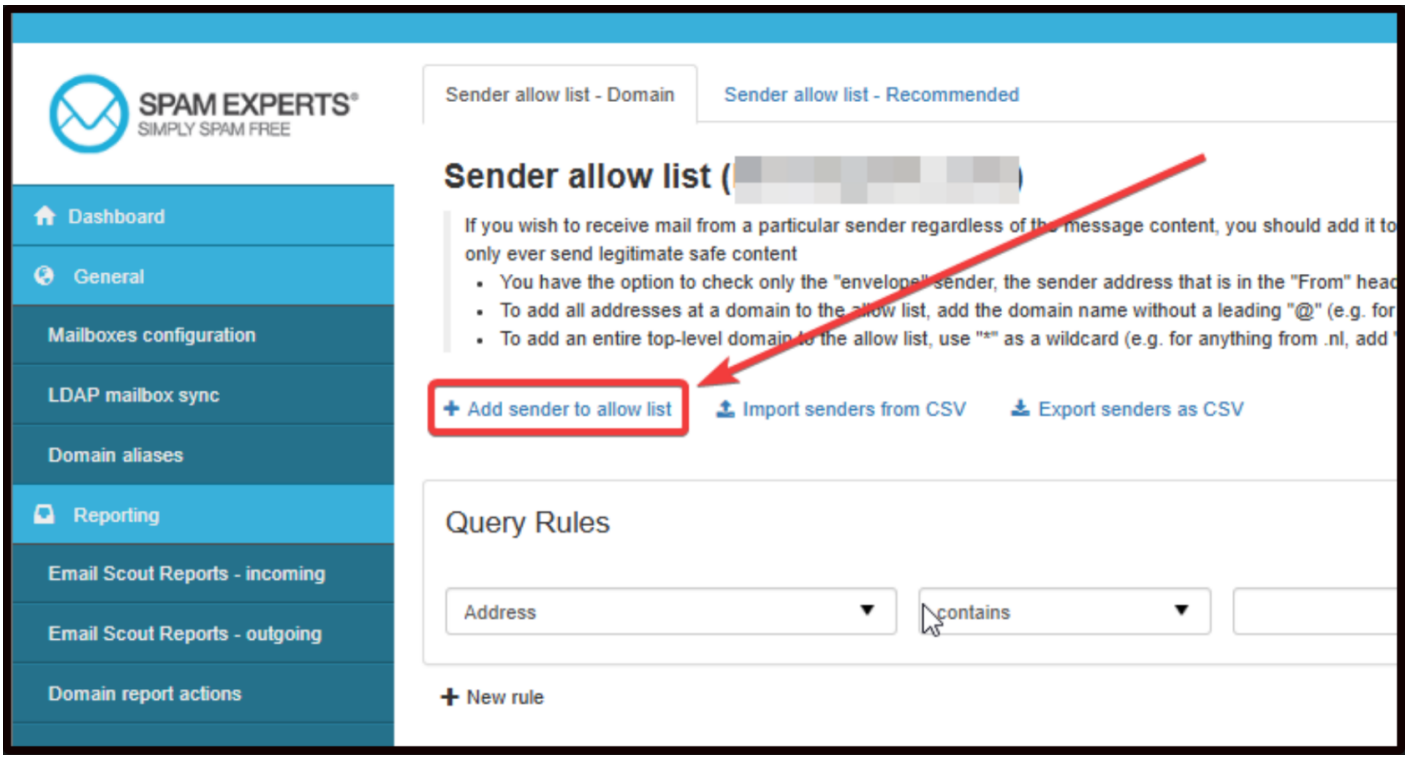

2 - În pagina nou deschisă da-ți clic pe opțiunea „**Manage in SpamFilter Panel**”

3 - Accesați modulul „**Sender allow list**"

4 - Accesati din meniul 'Sender allow list - Domain' butonul '**+ Add sender to allow list**'

5. Adaugare in allow list

Local-part : postmaster

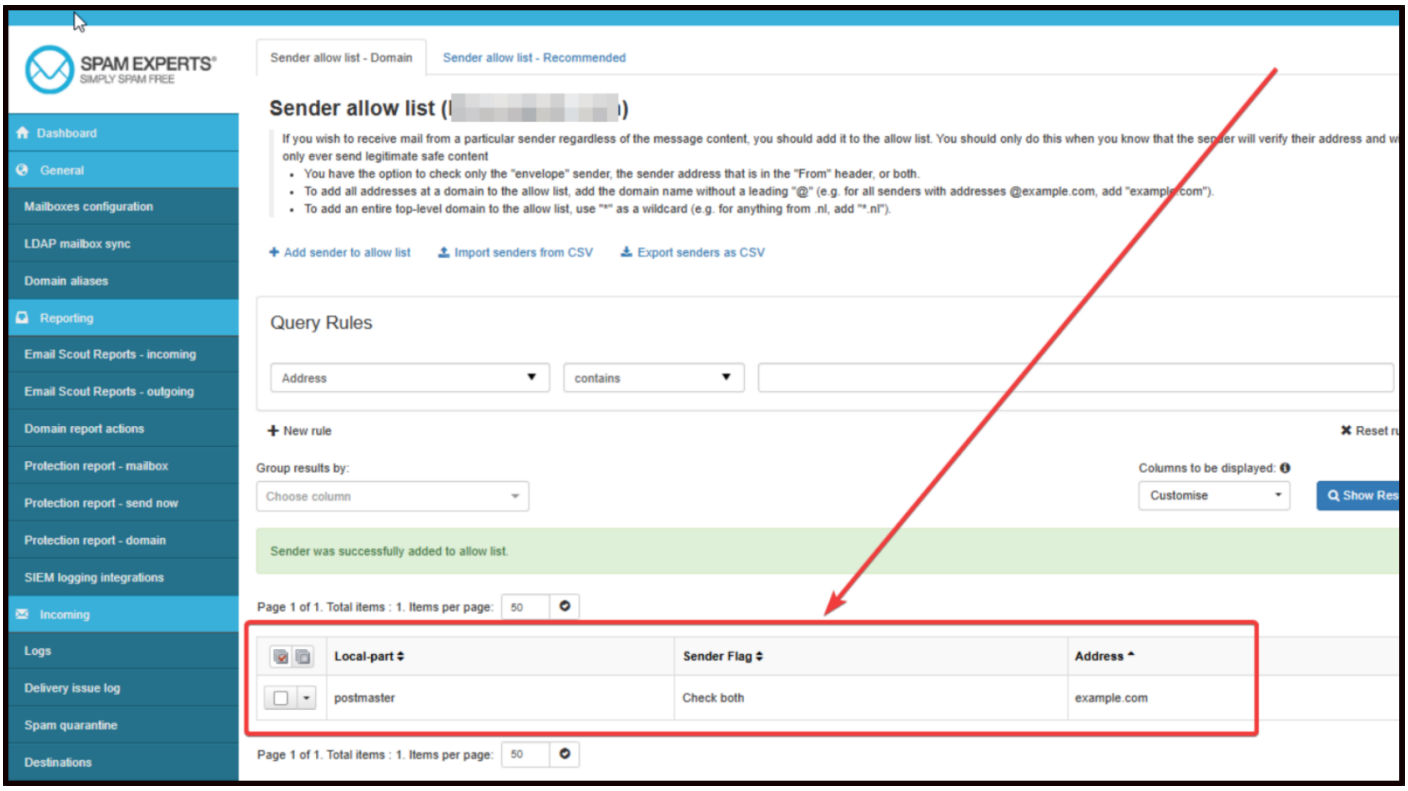

Sender Flag: Apply to both

Address: [Aici introduceti domenul de la care doriti sa primiti emailuri . Doar domenul, NU adresa de email]

6. Final setare

In final ve-ti obtine asa rezultat. Setarea este terminata
