User Accounts User Roles

If you want to allow other users to access Plesk in order to manage webs your domains, then you need to create user accounts.

[+ Create User Account](#) [✕ Remove](#)

61 items total Pages: First << 1 2 3 >> Last

☐	Contact name ↑	Email address
☐	[blurred]	[blurred]
☐	[blurred]	[blurred]
☐	[blurred]	[blurred]

4. Completați Date

Introduceți **Nume complet**, **Email**, **Parolă**.

Selectați **Rol** (*Owner, Accountant, Admin*).

Apăsați **OK** / **Finish**.

The screenshot shows the 'Create User Account' page in the Plesk control panel. The left sidebar contains navigation links: Websites & Domains, Mail, Applications, Files, Databases, Statistics, Users (highlighted), Account, and WordPress. The main content area is titled 'Create User Account' and is divided into two sections: 'General Information' and 'Plesk Preferences'. The 'General Information' section includes fields for 'Contact name' (1), 'Email address' (2), 'External email address', 'User role' (3), and 'Access to subscriptions' (4). The 'Plesk Preferences' section includes fields for 'Username' (5), 'Password' (6) with a strength indicator 'Strong', 'Confirm password' (7), 'Plesk language', and a checkbox for 'User is active'. At the bottom, there is an 'Activate account by email' checkbox and a red arrow pointing to the 'OK' button. The 'OK' button is highlighted with a red box. The 'Cancel' button is also visible.
